NSFS has for a while been working for a translation of Bo Lindell's four books on the history of radiation and radiation protection into English, and the translation has now begun.

Published: 08 Aug 2013

NSFS has for a while been working for a translation of Bo Lindell's four books on the history of radiation and radiation protection into English. Thanks to the efforts of NSFS, sufficient funds have now been collected through the generous support of IRPA, NKS and the Nordic Radiation Protection authorities, an editorial board with participants from all Nordic countries has been assembled and a professional translator has been contracted and has started the translation. The intention is that PDF versions of the final translations will be available for free download and printed versions can be provided at cost by print-on-demand.

Titles of the 4 books (in Swedish): Pandoras ask, Damokles svärd, Herkules storverk, samt Sisyfos möda.

Invitation to IRPA14, Cape Town 2016

08 Aug 2013

The next world congress on radiation protection takes place in Cape Town in May 2016. NSFS participates actively in planning this important congress as Jack Valentin is chairing the program committee. If others are interested in participation in the planning, please contact the NSFS Board regarding possibilities for nomination.

First announcement is out now, and more information can be found on the congress website.
