

# Conference 2019 – Exhibitors

As part of the meeting venue there will be an exhibition area where providers of radiation protection related instrumentation, health physics equipment and services will be able to introduce their products. The exhibition area will be close to the meeting hall, the poster area and the coffee service.

In on-line registration you choose between two alternatives:

If you choose “exhibition stand only (no participation)”, your company is registered without any participants to the conference.

By choosing “Exhibition stand + participation” one exhibitor per company can participate in all (his/her companions shall register as normal participants).

Further information will be sent to registered exhibitors.

If you have questions concerning exhibition, please contact NSFS treasurer at [treasurer\(at\)nsfs.org](mailto:treasurer@nsfs.org).
