MoU with IOMP

In 2023, the International Organization for Medical Physics (IOMP) and the International Radiation Protection Association (IRPA) have signed a renewed Memorandum of Understanding (MoU) on promoting the safe use of radiation in healthcare without compromising on quality of care.

The MoU highlights the two organizations’ recognition that they can complement each other in promoting their respective objectives and, also, their commitment to enhance the cooperation between the two organisations in the field of radiation protection.

Discount on Annals of the ICRP for society members

Discounts on Annals of the ICRP are available to member of NSFS, as members of a society affiliated to IRPA.

The discount is 25% on both subscription and single issues.
Contact one of the Board members in your country to receive information on the discount code to use.

Information on how to use the discount code is found on the journal homepage.
