Uranium Floor

- Simple Contamination, Comprehensive Solution -

Mikkel Øberg Health Physicist Danish Decommissioning

miob@dekom.dk

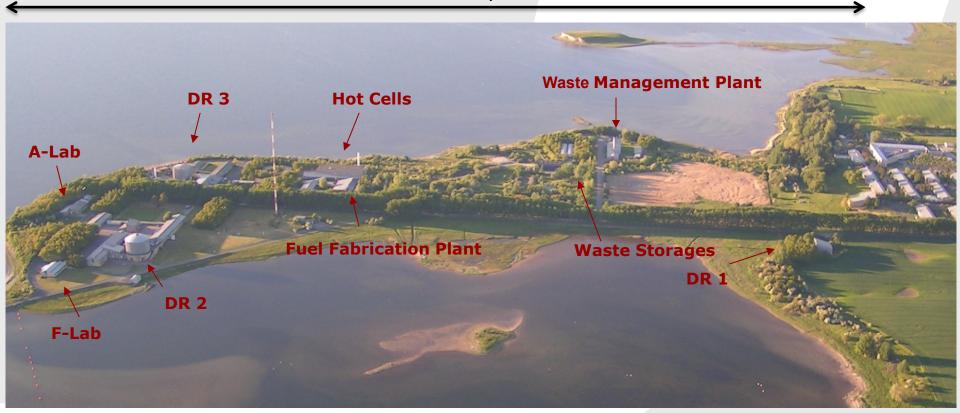

NSFS June 2019

Location of DD facilities

1 km = ~0,6 mi.

To be decommissioned

- Reactor DR 1 ✓
- Reactor DR 2 🗸
- Reactor DR 3 ongoing
- Hot Cell facility ongoing
- Fuel Fabrication Plant ongoing

 Waste Management Plant - in operation – Project Description for Decommissioning approved

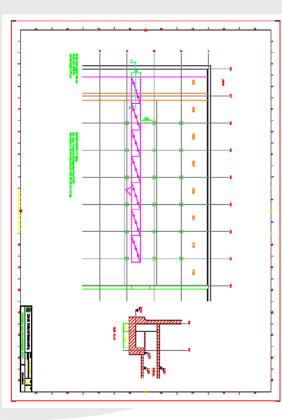

Fuel Fabrication

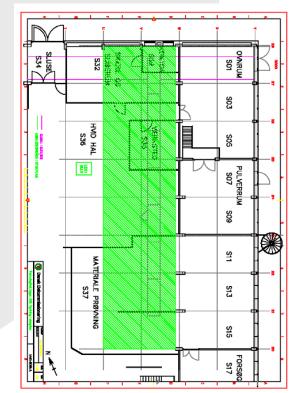

- The plant produced fuel elements for DR 2 + DR 3
- Decommissioning almost finalised
- Mainly decontamination of walls/floors and removal of equipment, ventilation and drainage systems
- Unexpected contamination in part of the basement

Impacted Area

- The floor is made of Uranium -

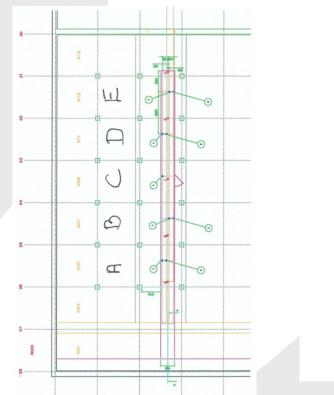

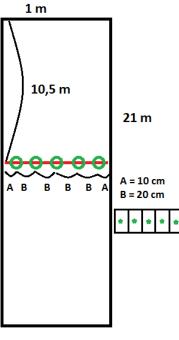

DANSK DEKOMMISSIONERING

Sampling

- Measuring the crawlspace -

Results

- What we found -

- 1. Surface- α and smear tests
 - * 0.2 0.5 Bq/cm² and \leq 0.002 Bq/cm²
- 2. Drill samples (increments of 2 cm, max ^{235}U , ± 20 %)
 - 0-2 cm: 0.185 Bq/g
 - 2-4 cm: 0.0331 Bq/g
 - 4-6 cm: 0.00179 Bq/g
 - 6-10 cm: < PGA
- 3. Clearance
 - 2-4 and 4-6 would pass clearance, as the clearance index [CI] is below 1
 - If they were individually assessed and not part of the building
 - 0-2 would require an exemption by increasing CI to 5

Real Results

- What really happened -

- 1. DD asks for exception from normal clearance [10 µSv/yr]
 - ~1000 kg
 - Need to eat 120 g or inhale 2 g dust to reach 10 μSv
- 2. Price for removal of top 2 cm
 - 1,6 million DKK
 - ~240,000 USD
- 3. Standard value of "1 avoided person Sv" is approx. 1 million DKK
 - So in this case that would be 10 DKK
 - Estimated price is more than 5 orders of magnitude higher
- 4. Regulators: Remove it all

Cutting Concrete

- To remove just top 6 cm -

Summary

- Argue based on facts
 - Measurements/calculations/evaluations
 - Guidelines describe in the order of 10 μ Sv/y
 - Guidelines describe (...) for **bulk quantities**
 - Guidelines describe excemption
- Remember the authorities have a political aspect, as well as economical and scientific
- Solve the problem not the issue
- Keep the solution simple
