## General Information

The Nordic Society for Radiation Protection (NSFS) is a member of the International Radiation Protection Association (IRPA). The aim of the society is dedicated to the development and dissemination of knowledge and experience on protection against ionizing and non-ionizing radiation. This work is mainly done through the arrangement of general conferences within the Nordic countries, where members can meet and exchange views and information. At the General Assembly in Malmö 2023, it was decided that the NSFS conferences shall be arranged in Norway in 2025.

The (20<sup>th</sup>) NSFS Conference will start at lunch 27<sup>th</sup> August and closes at lunch 29<sup>th</sup> August 2025 in the city of Lillehammer, Norway.

## Call for Abstract

The board of NSFS cordially invites you to submit abstracts to the conference. These must be submitted electronically, by following the instructions on the NSFS homepage ([nsfs.org](https://nsfs.org)). Abstract templates will be provided together with the abstract submission instructions. The abstracts will be reviewed by the NSFS scientific committee and assigned to appropriate session. The conference language will be English.

You are invited to submit an abstract of any topic within the broad range of radiation protection for presentation or as a poster. Topics may include but are not restricted to:

- New challenges in radiation protection
- Radiation protection in medicine, research and industry
- Nuclear energy in a new area
- Decommissioning
- Radioactive waste management
- Environmental radiology and monitoring
- NORM including Radon
- Non-ionizing radiation
- Emergency preparedness
